

BE AWARE

EYEWEAR 2018

*Look at it. Study it. Touch it. Feel it. Put it on. Look through it.
Observe others as they look at you in it. Become the eyewear.
Know it and understand it like you know and understand yourself.
No one delivers the story of eyewear for 2018 better than you.*

Sometimes it takes a bit of metal to make that zyl smile even better... and... vice versa.
