CREMIEUX A&A Optical

A&A Optical presents new styles from its Cremieux Eyewear collection. Contemporary classic style mixed with a timeless French Riviera touch, Cremieux Eyewear is defined by preppy details, quality and chic elegance. With classic shapes and wearable colors, this collection offers sophisticated men everywhere a taste of French elegance. All frames feature high quality materials sourced from around the world. A combination of handmade Italian Mazzucchelli and Japanese Daicel acetates, fine metal and wood temples, German and Austrian hinges, and iconic Cremieux custom prints make each frame unique. The Camden style is characterized as sleek and modern with a combination frame of acetate and stained wood. The Chukka style is perfectly polished with two-toned metal details, a rich acetate front and luxe temple sleeves. The Stapress style features a thin double bar construction and a round shape. All frames feature the French quote, "ma vision du style," or "my vision of style."
